

Geography

Year: 12/13

“Geography is destiny”

Abraham Verghese

Course content

Geography in the sixth form is taught vertically, with students from both years 12 and 13 in one class. The students will follow the Edexcel specification and will be assessed via three examinations and one non-examined investigation based around their own field-work data collection.

Skills developed

- Statistical Analysis
- Locational and place based knowledge
- Critical thinking
- Analysis and evaluation
- Fieldwork and data collection
- Explanation of human and physical processes
