

Biology

Year: 12

“Biology is the science. Evolution is the concept that makes biology unique.”

Jared Diamond

Course Content

Foundations in biology, Exchange and Transport, Biodiversity, evolution and disease.

Skills developed

- Development of practical skills in biology
- Planning
- Implementing
- Analysis
- Evaluation

Topics covered

- Cell structure
- Biological molecules
- Biological membranes
- Cell division, cell diversity and cellular organisation
- Exchange surfaces, Transport in animals and plants
- Communicable diseases, disease prevention and the immune system
- Biodiversity, Classification and evolution
