

Targeted Home Learning

Year: 11

This year, the frequency of ***Targeted Home Learning*** for year 11 is changing.

Targeted Home Learning is a tool we use to close gaps in recent learning, enabling the students to make further progress. All year 11 pupils will receive home learning tasks regularly from their individual subject teachers, rather than once per half term.

Deadlines will be set for each task, and support in completing the tasks will be available on an ongoing basis.
