Additional opportunity for the COVID-19 vaccine for children aged 12 to 15

Dear Parent/Carer

As you may be aware, a session recently took place in your child's school offering the COVID-19 vaccination to all children aged between 12-15, in line with the government offer from 13th September and following advice from the UK's chief medical officers that all children are offered one dose of the Pfizer-BioNtech COVID-19 vaccination.

Not all children were able to receive their vaccine during the session. This could be for a possible number of reasons, including:

- that your child didn't have a returned consent form on the day, or the form wasn't completed in time. The form was distributed by your child's school.
- Your child declined to have the vaccine.
- Your child did not attend their appointment and possibly was not in school.
- Your child declared they have recently had COVID-19, or was displaying symptoms.
- Your child wasn't between the ages of 12-15 on the day of vaccination.
- Due to operational challenges on the day, we were unable to see all children booked in to have their vaccine.

I am pleased to let you know that there is an additional opportunity for your child to receive the COVID-19 Vaccine at:

Leeds COVID Vaccination Centre (next to Elland Road LUFC site), Bobby Collins Way, Leeds, LS11 0EB

We will be offering a walk-in service from **Monday 25th October to Friday 29th October 8:00 am - 6:30 pm**. The consenting process will be carried out at the same time the vaccine is administered so it is important that you attend with your child
