

KS3 DT Curriculum Year 9

Expanding our woodwork skills.... Picture frame project

Building on our Researching, Making and evaluating skills.

Utilising our prior technical knowledge to expand our knowledge of the design process.

Becoming problem solvers.... Desk tidy project

Can you solve a real-life problem with creative design ideas.

How can you use model making to help solve design problems.

Responding to a design brief.... Slot Toy project

Developing our CAD/CAM skills to fulfil the wants and needs of a client.

Developing our evaluative skills by evaluating against a brief and specification.

Improving our model making.... Toothbrush project

Utilising our model making skills to make prototypes that fulfil the wants and needs of a specific client?
