**INTENT**  
THE AIM OF OUR CURRICULUM

**We want to provide a broad and balanced curriculum that all students can access, promoting equity of experience and removing barriers of social and cultural inequality.**

- We want to provide academic challenge that develops passionate independent learners who achieve highly and are equipped to do so.
- We want to provide a range of social and cultural enrichment experiences that enable our students to develop a critical perspective of the world, how they can be successful in it and how they can shape it for themselves and others.
- We want to develop students' character, skills and confidence so they can fulfil their potential and create opportunities in their future.
- We want to provide an environment where students can celebrate their own and others identities, creating a community where all can flourish.
