Who are the MindMate Support Team?

The MindMate Support Team offer early emotional wellbeing support for young people up to 18 years old in education settings across Leeds.

Our service was developed in partnership with mental health services, education providers and young people.

Our aim is to improve access to support for children and young people, to prevent any emotional wellbeing difficulties becoming harder to manage.

We also work with staff in education settings to build cultures where wellbeing is prioritised for all.

How can the MindMate Support Team support you?

We offer short-term Low-intensity Cognitive Behavioural Therapy (LI-CBT) for **mild to moderate** emotional wellbeing difficulties. This includes:

- When you are feeling anxious, worried or stressed
- Can't sleep or are sleeping too much
- Are experiencing changes in your mood
- Experiencing a racing heart and may not know why

Low-intensity CBT is an evidence-based intervention which is known to be effective in supporting young people experiencing anxiety and low mood. We offer this on a 1:1 basis or within a group and or supporting parents to learn techniques to support their child.

In addition to providing direct support, we can offer resources to help you manage your emotions and direct you to access other appropriate services. We can also help education staff to work with you to support your emotional wellbeing.

How can I get support from the MindMate Support Team?

You can speak to a staff member in your education setting and they can contact the team on your behalf. We also offer support to Electively Home Educated children and young people.

You can contact us to find out the best way to access support in your school or college:

Service design

Working in collaboration with young people on how we deliver our service is vital for our service to work. If you're interested in being involved, please call or email our service to speak to the participation champion and express your interest.

Is the service confidential?

We keep your information private and confidential, but we do share some things with your education setting unless you ask us not to. This will usually include letting them know you are receiving support from our service and letting them know when this support finishes.

We will always try to discuss information we need to share outside of our team with you first so that you know what we might say and why.

If you are struggling with your mental health and are worried about keeping yourself safe please either make an emergency appointment with your GP or attend your nearest Accident and Emergency Department. You can also contact 111 to be put in contact with your local area crisis services. In an emergency, call 999 and ask for an ambulance.
